

I, on behalf of Association Of Physicians Of Amravati, feel deeply privileged & honoured to be able to invite you all to the 3 rd Annual Conference of Association Of Physicians Of India – Vidarbha Chapter (VAPICON -2011) AT Amravati on 11 th, 12 th & 13 th February 2011.

The honour of hosting this conference has been bestowed upon Association of Physicians of Amravati (APA) at Amravati which holds a unique sanctity in the mythological as well as cultural history of India in general and Vidarbha in particular. It may be mentioned that the land of Amravati blessed by goddess Ambadevi has produced the galaxy of great freedom fighters, social reformists and eminent educationists. The prominent among them was Late Dr. Punjabrao alias Bhausaheb Deshmukh, the 1 st

Union minister of agriculture, who through his relentless hardwork, dedication and commitment made the doors of education open to even the most underprivileged & educationally deprived segment of the population in this region through Shri Shivaji Education Society. The selection of the venue of Dr. Punjabrao Memorial Medical college & Research Centre has been guided by the noble motive of paying tribute to that great visionary.

All sincere efforts have been made to make this conference a great feast of education by inviting very distinguished and enterprising physicians who would be enlightening the delegates by sharing their experiences and expertise.

This conference aims to invite the physicians from all across Vidarbha to update and enrich themselves by earning accreditation points as per the norms of Medical Council Of India and Maharashtra Medical Council.

The organizing committee feels supremely confident that this conference would be a resounding success through your co-operation , participation and blessings .

Looking forward to welcoming you.

Yours truly,

Dr. Ajay Daphale
